Item-

Purpose – *Review; Update; Discuss; IBB*

1. Previous Minutes- Review

Minutes from the October meeting were reviewed and accepted. **Completed**

2. Using WG-12's and WG-10's to fly operational missions- Update

Discussion: Due to mission requirements it has been necessary for aircraft mechanics to fly operational missions during the day. Currently when we have more than one mission per day maintenance must provide a mechanic to fly. The facility flight engineer instructor flies the single mission days and the days that there are multiple missions. Only properly trained and evaluated mechanics are being used (3 Mechs). Clint Byington and Anthony DiGiacomo are contacting the SAO/ HRO for available options and PD requirements. **Management/Labor**

Action: After discussions with SME Cindy Lamprecht, we will continue to fly operational missions with properly trained and qualified WG12's and WG10's. To help reduce the impact put on maintenance by flying everyday. We have transferred a position from maintenance to the operations section. We have hired another flight engineer instructor. **Completed**

3. New LPC member for Labor- Review

Discussion: Introduced Rich Lane as our new Labor LPC Member

Action: **Completed**

4. New VP Army Aviation- Review

Discussion: Steve Cook has been appointed as the new VP Army Aviation, replacing Clint Byington

Action: **Completed**
